9 March 1955

MEMORANDUM FOR: Director of Personnel

SUBJECT : WAE Staff Physicians

1. Subject physicians are currently employed by the Medical Staff in the capacity of part-time examining physicians. As such, they perform physical examinations given in Agency buildings. Subjects are all capable, well-trained men of excellent professional standing who are exceptionally well-qualified for their duties with the Medical Staff.
2. Subject physicians have requested an increase in daily rate of compensation from the current \$22.00 for a four-hour day to \$27.00. I am particularly anxious to satisfy their request since their services to the Agency over a period of years have become invaluable. It would obviously be impossible to replace their experience with us and you are assured it would be extremely difficult to replace their professional qualifications and competency.
3. It is requested that appropriate measures be taken to increase the rate of compensation for subject physicians to \$27.00 per day.

JOHN R. TINTJEN, M.D.
Chief, Medical Staff
